

CAM+ · CONNECTED AUTOMATED MONITORING

# Certainty for every sample, every dose, every site.

24/7 automated monitoring for hospital laboratories, blood banks and pharmacies, with alarms that reach a person and records that are always inspection-ready.

**24/7**

Monitoring and alarm response

**±0.3°C**

Accuracy, traceable calibration

**-200 to +200°C**

LN<sub>2</sub> cryogenic to incubators

**5yr**

Sensor battery life

## HOW IT WORKS

### Sense

Wireless sensors fitted in minutes

### Record

Every reading logged, tamper-proof

### Alarm

Call, SMS and email until someone accepts

### Prove

One-click reports and signed incident audits

## WHAT YOU CAN MONITOR

- Fridges & freezers
- Blood bank refrigeration
- Room temperature & humidity
- O<sub>2</sub>, CO<sub>2</sub> & differential pressure
- ULT & LN<sub>2</sub> cryogenic storage
- Incubators
- Door contacts
- Power & equipment faults

“Checkit replaced a very painful and highly inefficient process and helped bring us into the digital era. They’ve saved us countless hours, and it’s far more accurate.”

Joseph Ranne, Project Manager, Octapharma

## BUILT FOR REGULATED LABS

- ✓ **Tamper-proof records:** no transcription or backfilling
- ✓ **21 CFR Part 11** ready, with optional eSignature
- ✓ **Supports GMP, MHRA & CQC** requirements
- ✓ **ISO 17025 traceable calibration,** certificates in your portal
- ✓ **ISO 27001** certified cloud platform

## PROVEN AT SCALE

**60+**

NHS trusts

**300+**

healthcare sites

## Connected Automated Monitoring for medical cold chains

CAM+ protects temperature-critical stock across hospital laboratories, blood banks and pharmacies.
